

Barcelona International Youth Science Challenge

Barcelona, December 3rd 2018

To whom it may concern,

I am pleased to inform you about the 2019 edition of the **Barcelona International Youth Science Challenge (BIYSC)**, organized by Catalunya La Pedrera Foundation.

BIYSC is a two-week excellence program that aims to stimulate scientific talent among young people from all over the world through 12 different research projects from a broad range of subjects across STEM fields. It is meant to encourage their enthusiasm for pursuing careers in science and technology.

Next summer, 120 undergraduate students from 16 to 18 years-old will have the chance to join BIYSC from July 8th to 19th 2019 in Barcelona.

We kindly ask you to spread the word to help us reach those talented and curious students who have genuine interest for scientific research, and eagerness and commitment to take the most of this opportunity.

This envelope encloses:

- **40 leaflets**, which can be distributed among the students.
- **4 posters** to hang in your school.

We hope you find the program interesting. Thank you in advance for your cooperation.

Please do not hesitate to contact us for further information.

Yours sincerely,

Lluís Farrés Cardoso
Director of BIYSC
